Summary

Backend Developer trained at FunctionUp with hands-on experience building **RESTful APIs with performance optimizations** using Node.js, Express, and MongoDB. Skilled in authentication, caching (Redis), media storage (Cloudinary), AI integration, and problem-solving (500+ coding challenges).

EXPERIENCE

FunctionUp – Backend Developer Trainee (Remote) | Jul 2022 – Apr 2023

- Developed backend systems with authentication, caching, and payment integration.
 - Improved API performance using Redis caching and optimized database queries.
 - Collaborated with peers on GitHub, contributing to production-ready backend systems.
 - Strengthened problem-solving skills through challenges on HackerRank, CodeWars, GFG, and LeetCode.
-

PROJECTS

1. MediCart RESTful API – [GitHub](#)

Tech Stack: Node.js, Express.js, MongoDB, JWT, bcrypt, JavaScript, Redis, Cloudinary, Razorpay

- Built a role-based eCommerce backend with buyer and seller modules.
- Integrated cart, order, payment (Razorpay), and Cloudinary for image uploads.
- Secured API routes with JWT and followed REST principles for scalable architecture.
- Optimized endpoints for high concurrency using JWT-based authentication.

2. URL Shortener Application – [GitHub](#)

Tech Stack: Node.js, Express.js, MongoDB, Redis, JavaScript, nanoid

- Developed RESTful APIs for URL shortening, redirection, and click tracking.
- Used Redis caching to reduce response time by **30%** and MongoDB for storage; generated short codes with nanoid.
- Implemented rate limiting middleware to restrict excessive requests and protect the server from overload.

3. Internship Management API – [GitHub](#)

Tech Stack: Node.js, Express.js, MongoDB, JavaScript, JWT, bcrypt, Cloudinary, Gemini AI

- Developed a backend system to manage internships and student applications.
 - Built APIs for posting internships, applying, and managing applications with validation.
 - Integrated Gemini AI to auto-generate concise internship descriptions, reducing manual effort by **70%**.
-

SKILLS

Languages: JavaScript, SQL

Backend & DB: Node.js, Express.js, MongoDB, Redis

Tools: Git, GitHub, Postman, VS Code, MySQL Workbench

EDUCATION

Maharshi Dayanand University – B.Tech, Computer Science and Engineering

Aug 2016 - Aug 2020 | Score: 70.30%

ACHIEVEMENTS

- Solved **500+ problems on LeetCode**(Contest Rating: **1443**).
- Open-source contributor to **Fastify**: improved documentation and contributed to **fastify-static** plugin.
- Earned **"SQL and Relational Databases 101" Certificate** by IBM.
- Completed the **Postman Student Expert Workshop**.
